

SPECIMEN LABEL

ADDITIVE FOR STARTER FERTILIZERS

NOT A PLANT FOOD INGREDIENT

This product is not a fertilizer
Patents Pending

ACTIVE INGREDIENTS:

37.00%.....	Ammonium Carboxylates and polyacrylates
63.00%.....	INERT INGREDIENTS
100.00%	TOTAL

KEEP OUT OF REACH OF CHILDREN

CAUTION

See Inside Panel for Additional Precautionary Statements.

SN: 0405/0106

COLLIERVILLE, TN 38017

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes, and clothing. Avoid breathing dust or spray mist. Wash thoroughly with soap and water after handling. Do not apply this product in such a manner as to directly expose workers or other persons. In addition, follow precautionary statements on accompanying product's label(s).

WHAT TO DO IN CASE OF CONTACT:

IF IN EYES: Immediately flush eyes with clean water for at least 15 minutes. Call a physician if irritation persists.

IF ON SKIN: Remove contaminated clothing and wash skin with soap and water. Call a physician if irritation persists.

IF INHALED: Move to fresh air. See a physician if irritation persists.

IF SWALLOWED: Give a large amount of water to drink, make person vomit and immediately call a physician. Do not induce vomiting or give anything by mouth to an unconscious person.

If contact is made with a spray solution containing pesticides, follow the "Statement of Practical Treatment/ First Aid" statement on the Product's label(s).

STORAGE AND DISPOSAL

Store in original container only. Keep packages tightly closed and do not allow water to be introduced to container contents. Do not store near heat or open flame. This product may freeze at temperatures less than 10° F. Thawing occurs readily at temperatures greater than 32°F.

Container Disposal: Empty packaging should be offered for recycling or disposal in accordance with Federal, State and local authorities. If packaging is burned, stay out of smoke. For help in chemical emergencies involving spill, leak, fire or exposure, call toll free 1-800-424-9300.

GENERAL INFORMATION

BEFORE USING THIS PRODUCT, READ ALL PRECAUTIONS, DIRECTIONS FOR USE, CONDITION OF SALE-LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES.

ASSET® RS is a fertilizer additive designed to enhance the solubility and absorption of plant nutritional products. In addition, **ASSET® RS** may improve the compatibility of fertilizer spray mixes and may reduce application equipment corrosion problems.

ASSET® RS may also be useful in lowering the freeze point of some fertilizer mixtures.

ASSET® RS is particularly effective with row starter fertilizers.

When used in conjunction with sound fertility practices, **ASSET® RS** may improve the performance of nutritional products used in wide range agricultural, ornamental and turf applications.

NOTE: This product is not a fertilizer and should not be used as a substitute.

USE RECOMMENDATIONS

ASSET® RS is compatible with most liquid fertilizer/herbicide spray mixes at manufacturers specified label rates. However, it is recommended that a "jar test" be

performed prior to the actual application. In the event of fertilizer/herbicide compatibility problems, the addition of a stabilizing/compatibility agents are recommended. Best results are obtained when **ASSET® RS** is incorporated or injected in a zone or band in the soil with the fertilizer component at a minimum depth of two (2) to four (4) inches. The recommendations for the use of this product are based upon the best current information available.

DOSAGE RECOMMENDATIONS

To determine the proper amount of **ASSET® RS** to add to the fertilizer, multiply the recommended dosage rates below by the number of acres one ton of fertilizer will cover.

Row or Band and Injection Applications: Use **ASSET® RS** at the rate of five (5) to six (6) ounces per acre.

Broadcast Applications: Use **ASSET® RS** at the rate of ten (10) to eleven (11) ounces per acre.

Warm Season Sod Production: 1 quart per acre. Apply 3-5 weeks before lifting.

DRY GRANULAR FERTILIZER

ASSET® RS may be impregnated on most nitrogen fertilizers or dry fertilizer blends that are composed of at least 50% of a combination of urea, nitrate or ammonium phosphate. Uniform application in the field is necessary to ensure optimum results.

Use and Dosage Recommendations: To ensure uniform coverage of the fertilizer during the **ASSET® RS** impregnation process, use a closed rotary drum mixer equipped with suitable internal spraying equipment, OR uniformly apply the **ASSET® RS** (see dosage recommendations above) with water to produce an adequate amount of solution to uniformly treat/impregnate the dry granular fertilizer.

MIXING WITH ANHYDROUS AMMONIA

ASSET® RS is readily soluble in liquid anhydrous ammonia. Carefully meter **ASSET® RS** into the anhydrous ammonia nurse tank or applicator tank by pumping it through an accurate, calibrated metering device into the liquid ammonia, either after filling or as the tank is being filled. Use a positive flow system or check valves, where appropriate, to prevent one product from entering the delivery tank of the other. Introducing both products simultaneously into the nurse tank or applicator tank automatically provides the mixing required for a uniform, homogeneous solution. Meter 0.45 gallons (3.6 pints, or 4.2 lbs.) of **ASSET® RS** into each ton of liquid ammonia. (This is equivalent to 3.2 quarts of **ASSET® RS** per 3589 lbs. of anhydrous ammonia, or 80 lbs. of **ASSET® RS** per 34,000 lbs. of ammonia.) When used with anhydrous ammonia add **ASSET® RS** at 0.034 ounces per pound of nitrogen applied.

CONDITIONS OF SALE - LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES

Read the Conditions of Sale - Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded.

This label is believed to be reliable and should be followed carefully. Injury to the crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of Helena Chemical Company (the "Company") or seller. In addition, failure to follow label directions may cause injury to crops, animals, man or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law.

The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at Helena Chemical Company's election, one of the following:

1. Refund of the purchase price paid by buyer or user for product bought, or
2. Replacement of the product used

To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company and the seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
